

# Atlas Copco Stationary Air Compressors

ZR90 - 9 - 60/E

## Parts List

Serial Number: S991908 01-06v00  
Customer: PEMEX MINATITLAN III, MEXICO

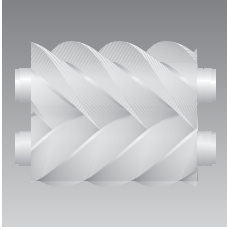

This book is made for a specific non standard machine.

It contains three parts:

- 1) The standard basic product parts list, in which pages or part of pages that describe items which are no longer valid for this specific machine are marked with "NOT TO BE USED, SEE ADDENDUM". In the content table these pages are marked up.
- 2) The parts list addendum, containing adapted text, including the description of non standard options
- 3) Glossary of part names

- Copyright 2006, Atlas Copco Airpower n.v., Antwerp, Belgium.  
Any unauthorized use or copying of the contents or any part thereof is prohibited.  
This applies in particular to trademarks, model denominations, part numbers and drawings.
- This parts list meets the requirements for instruction specified by the machine directive 98/37/EC and is valid for CE as well as non-CE labeled machines

Parts list

What sets Atlas Copco apart as a company is our conviction that we can only excel in what we do if we provide the best possible know-how and technology to really help our customers produce, grow and succeed.

There is a unique way of achieving that - we simply call it the Atlas Copco way. It builds on **interaction**, on long-term relationships and involvement in the customers' process, needs and objectives. It means having the flexibility to adapt to the diverse demands of the people we cater for.

It's the **commitment** to our customers' business that drives our effort towards increasing their productivity through better solutions. It starts with fully supporting existing products and continuously doing things better, but it goes much further, creating advances in technology through **innovation**. Not for the sake of technology, but for the sake of our customer's bottom line and peace-of-mind.

That is how Atlas Copco will strive to remain the first choice, to succeed in attracting new business and to maintain our position as the industry leader.

## Addendum to the Parts List

Serial Number: S991908 01-06v00

Customer: PEMEX MINATITLAN III, MEXICO

- Copyright 2006, Atlas Copco Airpower n.v., Antwerp, Belgium.  
Any unauthorised use or copying of the contents or any part thereof is prohibited.  
This applies in particular to trademarks, model denominations, part numbers and drawings.
- **Use only authorised parts.** Any damage or malfunction caused by the use of unauthorised parts is not covered by Warranty or Product Liability

[www.atlascopco.com](http://www.atlascopco.com)

## Introduction

This is an addendum.

The information in this addendum supersedes information in the Parts List.

## Why are documentation & drawings included?

Normally, a Parts List or an addendum to a Parts List does not include technical information. This information can be found in the Instruction Manual, and as an addendum to the Instruction Manual when applicable. In some cases, an addendum to the Parts List may include additional technical information in the form of drawings and parts lists for new subsystems. This provides additional explanation of non-standard items.

## How to use this addendum?

As the Parts List is divided into chapters, the addendum provides complete replacements for affected chapters. The chapters are numbered to conform with those in the Parts List. Additional chapters, which are not contained within the Parts List, are listed alphabetically.

### 1. Ordering parts

Always quote the part number, the name and the quantity of the parts required, as well as the type and serial number of the machine.

### 2. Explanation of columns

<b>Ref.</b>	Reference number	Relates a part in list and drawing. Parts without reference number are not shown on the drawing.
<b>Part No.</b>	Part number	If no part number is given the part cannot be obtained as spare part. A part of which the number is followed by a black dot is comprised in the bold printed assembly right above.
<b>Note:</b>		<b>An assembly is printed in bold in all columns.</b> "<<< >>>" directs to consult another list.
<b>Qty</b>	Quantity	Indicates the quantity of parts related to the reference number. "AR" means "as required": bulk material or quantity to be determined.
<b>Name:</b>		Translations of the English part names can be found in printed matter no. 2930 1214 00.
<b>Remarks</b>		Parts of a Service Kit may be spread over several lists. A letter can indicate a part has been certified according to the listed codes or rules by the indicated authorised body; if a letter is put between brackets the part itself is not certified but must be used on units certified by the authorised body. Dimensions are given in millimetres.

### 3. Authorized bodies:

Country	Applicable Code / Rule	Authorised Body
Australia	AS1210	D Department of Industrial Relations (DIR)
Austria	TÜV-WIEN Merkblätter	Ta Österreichischer Technischer Überwachungs-Verein (ATÜV)
Europ. Union	CE 87/404 directives for simple pressure vessels	CE Notified bodies are involved as applicable
Danmark	DNV Rules	N Det Norske Veritas (DNV)
Finland	SFS-Rules	Tk Taurus Tarkaskuskeskus (TTK)
France	CODAP '92 - AD Merkblätter	S Département Régional de l'Industrie et de la Recherche et de l'Environnement (DRIRE)
Germany	AD Merkblätter	T Technischer Überwachungs-Verein (TÜV)
Germany	Normen GerLL	Lg Germanischer Lloyd's (GerLL)
Great Britain	Lloyd's Register Rules, BS5500	L Lloyd's Register of Shipping (L.R.)
Italy	Raccolta's VSR/M/E/S	An Istituto Superiore per la Prevenzione e la Sicurezza del Lavoro (ISPESL)
Sweden	Swedish Pressure Vessel Code	Sa Svensk Anläggningsprovning (SA)
Switzerland	Technische Vorschriften für Druckbehälter und Kessel	Sv Schweizerischer Verein für Druckbehälter Besitzer (SVDB)
USA	ASME Section VIII Div 1, TENA for Coolers NEC - National Electrical Code	As American Society of Mechanical Engineers (ASME) U Underwriters Laboratories (UL)
Canada	CEC - Canadian Electrical Code PART1 (C22.1-94 Safety Standard for Electrical Installation)	C Canadian Standardization Association (CSA)

**Important notes :**

**A) Operation instructions and Spare parts lists of Non-Atlas Copco components**

Although any document that was delivered with the part is shipped with the machine, paper documents are often lost or put aside.

Documentation of parts used in this machine fabricated by other manufacturers than Atlas Copco can best be found on their internet website. (i.e. flow control products, motors, regulators ...)  
Most of them have a documentation sub-website where all information can be found.

If you have difficulties to find the information contact your Customer Centre.

**B) Paint**

If the unit is delivered with :

- customer specified top colour for canopy and/or frame
- other powder coating thicknesses
- semi-offshore coating or offshore painting

Spare parts of these items will be delivered in standard Atlas Copco grey for the canopy and standard black for the frame. (Spare part numbers of standard parts are printed in the Spare parts list.)

**C) Hydrostatic witnessed parts**

If the unit is delivered with hydrostatic witnessed parts, spare part numbers of not witnessed standard parts are printed in the Spare parts list.

To overcome long delays by ordering spare parts, partnumbers of hydrostatic witnessed parts **will not be supported.**

**D) Service Kits**

In the Spare parts list only standard Service kits are printed. Service kits of special parts **will not be supported.**
